c. UN Women Terms of Reference

1. Introduction

The United Nations Entity for Gender Equality and the Empowerment of Women (UN Women) launched the implementation of the programme “Supporting Syrian Women’s Engagement in the Syrian Political Process: Building a Constituency for Peace” on 9 September 2020. The programme’s overall goal is to support Syrian women’s participation in peacebuilding and decision-making at all levels, including through 1) the increased participation of the Women’s Advisory Board (WAB) in track I political processes; 2) the active engagement of women community leaders and women-led organizations in track II and track III peacebuilding efforts; 3) research and evidence building on women, peace and security (WPS) in the context of Syria; and 4) inter-agency coordination and policy advice to jointly promote the WPS agenda.

As a result of the programme, Syrian women’s civil society organizations (CSOs) increased their participation in different dialogue tracks, accessing a safe space to transparently share their challenges, exchange ideas and collaborate across geographical locations and focus areas, and build their individual and organizational capacities. Women’s CSOs, through engagement with the WAB, also strengthened constituency building and fostered linkages between women participating in track I dialogue efforts and grassroots women activists and representatives who participate in track II and III.

UN Women has supported Syrian women leaders and women-led CSOs to participate in the UN-facilitated political process. While the formal political process remains ongoing, UN Women is increasing its investment at the track II and track III levels as lessons learned in UN Women’s engagement in supporting Syrian women have highlighted the need to strengthen the voices of marginalized women in the process. This includes, inter alia, bringing together women from rural and urban areas, different socio-economic backgrounds, and from different ideological, cultural, and generational groups. Consultations conducted by UN Women have also shown that women from more religious backgrounds often do not feel represented in the political process, with negative consequences for the legitimacy of peacebuilding efforts at all levels.

Syrian CSOs face significant challenges considering the difficult operational environment. The capacity of these organizations to manage grants in line with UN Women’s reporting requirements has been hampered by constant security and operational challenges. In addition to facing limited space in which to operate, security concerns as well as financial and economic restraints are exacerbated for women-led organizations. Few organizations have the awareness, tools, or policies to advance gender-responsive programming. Women-led organizations have reported that the conditions for their operations in neighbouring countries are becoming increasingly difficult, due to ongoing economic and political challenges. These concerns are particularly acute in Lebanon and Türkiye. This adds another layer of complexity to providing support for CSOs.

Against this backdrop, UN Women’s aims to expand its cooperation with Syrian women-led and women-rights CSOs by opening this call for proposals, which is critical for implementing UN Women’s Whole of Syria approach while simultaneously responding to the challenges facing Syrian women’s civil society.

2. Description of required services/results

Preliminary information:

- In the framework of this call for proposals, UN Women will consider applications submitted by:
 - a. Individual proponents**
 - b. Two+ organizations submitting a joint technical and financial proposal.** The proposals should identify a lead applicant and a co-implementing partner. The lead applicant will be the one evaluated against UN Women’s eligibility criteria set out in this Call for Proposals.
- Both individual proponents’ and joint proposals’ submissions can mention sub-implementing partners (e.g. grassroots organizations, informal networks, specialized agencies...) in their project proposal to carry out specific project activities.
- The geographical focus of the project is the whole of Syria. In conducting the evaluation of the proposals received, UN Women will factor in geographical diversity to ensure the broadest outreach possible.
- Individual and lead applicants (in the case of joint applications) must be Syrian-led CSOs. Applications from individual proponents or lead applicants being Syrian-led CSOs operating in neighboring countries may also be considered.
- UN Women reserves the right to exclude applications that do not meet the requirements of this CFP.

Scope of the call for proposals:

UN Women is seeking partners to contribute to the implementation of the following Outcome: **Syrian women's civil society organizations have increased knowledge, financial and technical resources and ability to influence political and decision-making processes.**

Perspective applicants are requested to submit applications that contribute to the following objectives:

Support to Syrian women's civil society organizations working at all levels through consultations and local dialogue on the future of Syria, including on political, peacebuilding, humanitarian, and socio-economic issues.

Syrian women and Syrian women led CSOs will lead consultations and mediation dialogues in different Syrian geographies, with a particular focus on hard-to-reach and underrepresented communities. The outcomes of these consultations at the local level will be channeled upward to Syrian women leaders engaged in the formal political process, including members of the WAB. Consultations should also be held on the challenges faced by Syrian feminist civil society.

In addition, dialogue between diverse groups of Syrian women should be promoted with the scope of forming a cadre of activists, practitioners and local women's groups/CSOs with an in-depth understanding of the Syrian political process. With the support of UN Women, existing and new platforms that bring together women leaders at the track II level to consolidate knowledge from grassroots activists and come to common advocacy positions in relation to the track I process will be strengthened and established.

Strengthening of Syrian women's civil society organizations operating at the local level.

Perspective applicants should also ensure the strengthening of the organizational and operational capacities of Syrian grassroots organizations, enabling them to develop their organizational structures, efficiency, reporting, monitoring and evaluation, financial management, advocacy, and gender responsiveness.

Suggested Outputs and activities - NB: outputs and activities are indicative and may be changed/adapted by applicants as long as they contribute to the implementation of the overall Outcome.

- *Outcome; Syrian women and women leaders have increased knowledge on topics related to the political process, gender equality and women's rights.*
- *Output 1. Civil society beneficiaries have increased connection and access to the political process*
Suggested activities:

11. Evaluation of Technical and Financial Proposals

11.1 PHASE I – TECHNICAL PROPOSAL (70 points)

Only proponents meeting the mandatory criteria will advance to the technical evaluation in which a maximum possible 70 points may be determined. Technical evaluators who are members of an Evaluation Committee appointed by UN Women will carry out the technical evaluation applying the evaluation criteria and point ratings as listed below. In order to advance beyond Phase I of the detailed evaluation process to Phase II (financial evaluation) a proposal must have achieved a minimum cumulative technical score of 50 points.

Table for evaluating technical proposal

1	The proposal clearly outlines how to contribute to the implementation of Cfp Outcome.	20 points
2	The organization’s mandate is relevant to the work to be undertaken in the UN Women Terms of Reference and has demonstrated expertise working on gender equality in Syria (component 1)	15 points

3	The proposal demonstrates a sound understanding of the requirements of the UN Women Terms of Reference and indicates that the organization has the prerequisite capacity to undertake the work successfully, such as geographical diversity and outreach, experience in women’s political participation and decision-making, mediation and capability to strengthen the capacities of grassroots civil society organizations, (components 2, 3, 4 and 5)	35 points
	TOTAL	70 points

11.2 PHASE II - FINANCIAL PROPOSAL (30 points)

Financial proposals will be evaluated (using **component 6**) following completion of the technical evaluation. The proponent with the lowest evaluated cost will be awarded 30 points. Other financial proposals will receive pro-rated points based on the relationship of the proponents’ prices to that of the lowest evaluated cost.

Formula for computing points: Points = (A/B) Financial Points

Example: Proponent A’s price is the lowest at \$10.00. Proponent A receives 30 points. Proponent B’s price is \$20.00. Proponent B receives $(\$10.00/\$20.00) \times 30$ points = 15 points.

12. Preparation of Proposals

- 12.1 Proponents are expected to examine all terms and instructions included in the CFP documents. Failure to provide all requested information will be at the proponent’s own risk and may result in rejection of the proponent’s proposal.
- 12.2 The proponent’s proposal must be organized to follow the format of this CFP. Each proponent must respond to every stated request or requirement and indicate that the proponent understands and confirms acceptance of UN Women’s stated requirements. The proponent should identify any substantive assumption made in preparing its proposal. The deferral of a response to a question or issue to the contract negotiation stage is not acceptable. Any item not specifically addressed in the proponent’s proposal will be deemed as accepted by the proponent. The terms “proponent” and “contractor” refer to those organizations that submit a proposal pursuant to this CFP.
- 12.3 Where the proponent is presented with a requirement or asked to use a specific approach, the proponent must not only state its acceptance, but also describe, where appropriate, how it intends to comply. Failure to provide an answer to an item will be considered an acceptance of the item. Where a descriptive response is requested, failure to provide one will be viewed as non-responsive.
- 12.4 The terms of reference in this document provides a general overview of the current operation. If the proponent wishes to propose alternatives or equivalents, the proponent must demonstrate that any such proposed change is equivalent or superior to UN Women established requirements. Acceptance of such changes is at the sole discretion of UN Women.
- 12.5 Proposals must offer services for the total requirement, unless otherwise permitted in the CFP document. Proposals offering only part of the services will be rejected unless permitted otherwise in the CFP document.
- 12.6 Proponents may use the services of sub-contractors or sub-partners to partially perform the work except if the proponent is providing grant-making work. The proponent’s Technical Proposal shall indicate clearly if the proponent is intending to use sub-contractors or sub-partners and their names. If it is not possible to include the names of sub-partners and sub-contractors in the proposal, the names must be submitted to UN Women as soon as possible.
- 12.7 The proponent’s proposal shall state the following and include all of the following labelled annexes:

CFP submission (on or before proposal due date):

As a minimum, proponents shall complete and return the below listed documents (annexes to this CFP) **as an integral part of their proposal**. Proponents may add additional documentation to their proposals as they deem appropriate.

13 Format and Signing of Proposals

- 13.1 The proposal shall be typed or written in indelible ink and shall be signed by the proponent or a person or persons duly authorized to bind the proponent to the contract. The latter authorization shall be indicated by written power-of-attorney accompanying the proposal.
- 13.2 A proposal shall contain no interlineations, erasures, or overwriting except as necessary to correct errors made by the proponent, in which case such corrections shall be initialled by the person or persons signing the proposal.

14 Award

- 14.1 Award will be made to the responsible and responsive proponent(s) with the highest evaluated proposal following negotiation of an acceptable contract. UN Women reserves the right to conduct negotiations with the proponent(s) regarding the contents of their proposal. The award will be in effect only after acceptance by the selected proponent(s) of the terms and conditions of the agreement and the terms of reference. **The agreement will reflect the name of the proponent(s) whose financials were provided in response to this CFP.** Upon execution of agreement UN Women will promptly notify the unsuccessful proponents.

This section should provide an overview (with relevant annexes) that clearly demonstrate that the proponent has the capacity and commitment to implement the proposed activities and produce results successfully. Key elements to be covered in this section include:

1. the nature of the proponent – whether it is a community-based organization, national or sub-national NGO, research or training institution, etc.;
2. the overall mission, purpose, and core programmes/services of the organization;
3. the organization's target population groups (women, indigenous peoples, youth, etc.);
4. the organizational approach (philosophy) - how the organization delivers its projects (e.g., gender-sensitive, rights-based, etc.);
5. the organization's length of existence and relevant experience;
6. an overview of the organization's capacity relevant to the proposed engagement with UN Women (e.g., technical, governance and management, and financial and administrative management);
7. details of the following relating to prevention of SEA:
 - a. describe what measures are in place to prevent SEA;
 - b. describe reporting and monitoring mechanisms and procedures;
 - c. describe what capacity exists to investigate SEA allegations;
 - d. describe past allegations of SEA, if any, and how they were handled, including the outcome;
 - e. describe what SEA training the people (employees or otherwise) who will perform the services have completed; and
 - f. describe what reference and background checks have been done for employees and associated personnel.
8. details relating to grant-making work, if applicable:
 - a. describe the proponent's institutional capacity to manage grants, including appropriate grant award management, system/framework for undertaking grant proposal evaluation, due diligence and, appropriate governance and risk management (including composition and terms of reference of the independent designated steering committee or grant selection committee);
 - b. describe relevant history in managing resources through grant awards;
 - c. describe the proponent's grant portfolio;
 - d. describe relevant history in working with small organizations including experience in providing technical assistance;
 - e. describe the proponent's programmatic capacity, including monitoring and evaluation capacity; and
 - f. describe the proponent's capacity to assess and manage risks.

Component 2: Expected Results and Indicators (max 1.5 pages)

This section should articulate the proponent's understanding of the UN Women Terms of Reference (TOR). It should contain a clear and specific statement of what the proposal will accomplish in relation to the UN Women Terms of Reference. This should include:

1. The **problem statement** or challenges to be addressed given the context described in the UN Women Terms of Reference.
2. The specific **results** expected (e.g., outputs) through engagement of the proponent. The expected results are the measurable changes which will have occurred by the end of the planned intervention. Propose specific and measurable indicators which will form the basis for monitoring and evaluation. These indicators will be refined, and will form an important part of the agreement between the proponent and UN Women.

Component 3: Description of the Technical Approach and Activities (max 2.5 pages)

This section should describe the technical approach and should be able to show the soundness and adequacy of the proposed approach, what will actually be done to produce the expected results in terms of activities. There should be a clear and direct linkage between the activities and the results at least at the output level. Specific strategies should also be described to support the achievement of results, such as building partnerships, etc.

Activity descriptions should be as specific as necessary, identifying **what** will be done, **who** will do it, **when** it will be done (beginning, duration, completion), and **where** it will be done. In describing the activities, an indication should be made regarding the organizations and individuals involved in or benefiting from the activity.

This narrative is to be complemented by a tabular presentation that will serve as Implementation Plan, as described in Component 4.

This section should also include the details of all proposed sub-contracting and sub-partnering.

Component 4: Implementation Plan (max 1.5 pages)

This section is presented in tabular form and can be attached as an annex. It should indicate the **sequence of all major activities and timeframe (duration)**. Provide as much detail as necessary. The Implementation Plan should show a logical flow of activities. Please include all required milestone reports and monitoring reviews in the Implementation Plan.

Implementation Plan

Project No:		Project Name:											
Name of proponent organization:													
Brief description of project													
Project start and end dates:													
Brief description of specific results (e.g., outputs) with corresponding indicators, baselines and targets. Repeat for each result.

Activity	Responsible	1	2	3	4	5	6	7	8	9	10	11	12
1.1													
1.2													
1.3													
1.4													

Monitoring and Evaluation Plan (max. 1 page)

This section should contain an explanation of the plan for monitoring and evaluating the activities, both during its implementation (formative) and at completion (summative). Key elements to be included are:

- how the performance of the activities will be tracked in terms of achievement of the steps and milestones set forth in the Implementation Plan;
- how any mid-course correction and adjustment of the design and plans will be facilitated on the basis of feedback received; and
- how the participation of community members in the monitoring and evaluation processes will be achieved.

Component 5: Risks to Successful Implementation (1 page)

Identify and list any major risk factors that could result in the activities not producing the expected results. These should include both internal factors (for example, the technology involved fails to work as projected) and external factors (for example, significant currency fluctuations resulting into changes in the economics of the activity, risk of sub-contactors or sub-partners not performing). Describe how such risks are to be mitigated.

In this section also include the key **assumptions** on which the activity plan is based on. In this case, the assumptions are mostly related to external factors (for example, the assumption that the relevant government's environmental policy will remain stable) which are anticipated in planning the activity, and on which the feasibility of the activities depend.

Please attach a risk register to capture the above risk factors and risk mitigation measures.

Component 6: Results-Based Budget (max. 1.5 pages)

The development and management of a realistic budget is an important part of developing and implementing successful activities. Careful attention to issues of financial management and integrity will enhance the effectiveness and impact of activities. The following important principles should be kept in mind in preparing a project budget:

- Include costs which relate to efficiently carrying out the activities and producing the results which are set forth in the proposal. Other associated costs should be funded from other sources.
- The budget should be realistic. Find out what planned activities will actually cost, and do not assume that they would cost less.
- The budget should include all costs associated with managing and administering the activity or results, particularly the cost of monitoring and evaluation.
- Support Costs mean those indirect costs that are incurred to operate the Partner as a whole or a segment thereof and that cannot be easily connected or traced to implementation of the Work, i.e., operating expenses, overhead costs and general costs connected to the normal functioning of an organization/business, such as cost for support staff, office space and equipment that are not Direct Costs.
- If the partner has a Support Cost Policy that specifies a rate, the partner can include this rate to not exceed a rate of 8% or the rate set forth in the Donor Specific Conditions, if that is lower).
- If the Partner does not have a Support Cost Policy, the partner must provide a break-down of support costs (not exceeding a rate of 8% or the rate set forth in the Donor Specific Conditions, if that is lower).
- The budget line items are general categories intended to assist in thinking through where money will be spent. If a planned expenditure does not appear to fit in any of the standard line-item categories, list the item under other costs, and state what the money is to be used for.
- The figures contained in the budget sheet should agree with those on the proposal header and text.
- Depending on the results to be delivered, following suggestive thresholds could be followed for costs:
 - maximum for personnel related costs on a proposal - 20% of programming costs;
 - between 3-5% for audits (to be retained by UN Women for Responsible Party audits) (may change as per the annual audit cost);
 - 3% for monitoring and evaluation; and
 - up to 8% (or as per relevant donor agreement) – support costs including (utilities, rent etc.).

Result 1 (e.g., Output) Repeat this table for each result ³ .

3. Training/Seminars/Travel Workshops					
4. Contracts
